"The Price Makes it Go"

#### JUDGE JOHNSON ROBBED AT NEOSHO

Held up at Residence and Robbed of \$1,250.00

Judge F. C. Johnston, of Neosho, was robbed Sunday night of \$1,250 at the residence of D. L. Buxton, where he makes his home, his family not having moved from Springfield.

According to the Neosho Democrat Judge Johnston was in Monett Friday on a matter of business and was paid \$500.00. Friday night he returned to Neosho and on Saturday evening a gentleman paid him \$750.00. This he placed in an envelope with the money received in Monett.

Sunday afternoon two men called on him and talked with him about some land matters and gave him a \$5.00 retainer fee telling him they would call again Monday afternoon.

Sunday night the Judge went to church and on his return, the Burton family being absent, went to the basement to fix the furnace fire. On the back porch he was confronted by two men who each held a gun and demanded that he throw up his hands.

The men grabbed him, threw him down and took from his pocket the envelope containing the money. They seemed to know where the money was.

As soon as the men left the Judge notified the officers who telephoned to Peirce City for Black's bloodhounds.

When the dogs arrived they were taken to the scene of the robbery. The dogs followed the trail for some time but finally lost it near the light plant where it was thought the men either got in a vehicle or caught a train.

A reward of \$200.00 has been offered by the sheriff.

Judge Johnston formerly lived at Peirce City and was circuit judge for a number of years.

#### BOTH VILLA AND CARRANZA TO QUIT

Hostilities Between Two Factions In Mexico Have Been Stopped

Washington, Nov. 16.—Peace in Mexico after weeks of disension among the generals of the victorious constitutional army at last seemed in sight today, according to messages received by the United States government from its agents in the southern republic. Soon after American Consul Silliman telegraphed from Mexico City early in the day that hostilities between the forces of the convention and those loyal to Carranza had ceased, came a message from Leon Canova, special agent of the American government at Aguas Calientes, stating that General Carranza had telegraphed his intention of resigning. The message said:

"Everything settled satisfactorily. General Carranza had telegraphed General Gutierrez that he will retire."

Secretary Bryan made public the brief message, which was dated 7 p. m. yesterday, but made no comment on it.

#### FRISCO DEPOT BUILDING ASSURED.

Plans Drawn and Work Will Begin Before the New Year

General Manager E. D. Levy of the Frisco was in the city Monday forenoon to meet with the committee of the Commercial Club and its president to talk over the new depot and get their views on the matter.

The plans and elevations as presented by Mr. Levy were gone over carefully and some minor changes made. The intention of the company is to begin work as soon as possible and rush the work to completion.

Mr. Levy has decided not to build the baggage room in connection with the depot proper but will erect a separate building west of the depot which will contain the baggage room, express office and parcel post terminal.

The depot will be 40x85 feet in size and the waiting room will be 30x85 feet. A 10x85 foot section will be cut off the north side of the building in the center of which will be the ticket office and record room. East of this will be the men's toilet and smoking rooms, and on the west of the ticket office will be the women's rest room and toilet. In the front of the building will be a news stand.

The building will be constructed of concrete and brick, the brick to be covered with stucco so we understand. The floor will be constructed of concrete with a combination covering.

Mr. Levy made the statement to the committee that the company was making arrangements to erect a freight house on the north side of the tracks but did not say when work would begin or where the building would be placed.

#### M. U. PROFESSOR WRITES BULLETIN ON CATTLE DISEASE

That the epidemic of foot and mouth diseases among cattle, which already exceeds in area affected any of the five previous outbreaks in this country, may not spread through Missouri, every precautionary measure possible is being taken by the College of Agriculture of the University of Missouri.

A bulletin, now being edited by Dr. J. W. Connaway, professor of veterinary and comparative medicine of the University, will soon be distributed throughout the State. This bulletin will contain a thorough diagnosis of the disease and the methods that should be taken to eradicate it.

The present outbreak appeared first in Southern Michigan. How it was introduced there is not known. Shipments of diseased hogs from that vicinity to Chicago are believed to be responsible for the infection of the pens in the Union Stock Yards.

"We are going to do our best to confine the disease," said Prof. J. keep this disease from reaching the B. Ginery, assistant professor of veterinary science.

President Wilson Issues Proclamation Giving Regulations

Washington, Nov. 14.—President Wilson issued tonight a proclamation laying down rules and regulations to govern the use of the Panama Canal by the warships of belligerent nations.

It forbids the revictualing of belligerent warships in the canal "except so far as may be strictly necessary," and the transit of such vessels through the canal must be effected without unnecessary delay. Prizes will be subject to the same rules as warships.

Vessels will not be permitted to coal except to amounts necessary to carry them to the nearest friendly port. No belligerent can embark or disembark troops or munitions of war in the canal except in case of accident.

No more than three vessels of any one belligerent nation will be permitted at either terminal port of the canal at one time. Any vessel returning to the canal within a week after its departure will lose privileges of precedent in departure from the canal zone and in passage through the canal.

Except in cases of distress, and then only to make the craft seaworthy, vessels will not be permitted to use the canal repair docks. Wireless apparatus on warships in the canal zone can be used only to transact canal business. Airships of belligerents will not be allowed to land or fly over the canal zone.

To the proclamation was attached a protocol of an agreement between Acting Secretary of State Lansing and Minister Morales of Panama, that hospitality extended in Panama water to a belligerent vessel should serve to deprive such vessels of like hospitality in the Panama Canal zone for three months.

#### Eulogy on Bob White.

The following eulogy on Bob White was written by William T. Hornaday, once director of the New York Zoological park:

To my friend, the epicure: The next time you regale a good appetite with bluepoints, terrapin stew, fillet of sole and saddle of mutton, touched up here and there with the high lights of rare old cherry, rich claret and dry monopole, pause as the dead quail is laid before you on a funeral pyre of toast and consider this:

"Here lies the charred remains of the farmer's ally and friend, poor Bob White. In life he devoured 145 different kinds of bad insects and the seeds of 129 noxious weeds. For the smallest pests of the farm he was the most marvelous engine of destruction that God ever put together of flesh and blood. He was good, beautiful and true; and his small life was blameless. And here he lies dead, snatched away from his field of labor and destroyed, in order that I may be tempted to dine three minutes longer after I have already eaten to satiety."
